

Conservation

Conservation

ERTH Power supports the Government of Ontario's commitment to conservation and developing a conservation culture in the Province of Ontario. Our conservation strategy of **educating**, **encouraging**, **equipping** and **empowering** customers has been successful and will continue to ensure our customers have the knowledge and expertise to manage their electricity consumption and costs.

- Residential Conservation
- Commercial Conservation
- Conservation Resources
- Renewable Generation

ERTH Power provides a variety of conservation programs and encourages customers to take advantage of the programs. In addition, there are numerous programs offered by various government groups that provide incentives for energy efficient upgrades. Please visit our conservation resources page for information on these and other programs.
